BIG GERMAN DRIVE FAILS

American Steamer Sends U-Boat Down En-Route to An Atlantic Port

FRENCH AND GERMAN FIGHT RAGING FURIOUSLY; CROWN PRINCE FORCES ARE HALTED

Resumption of Attacks Over Wide Front Is Imminent—French Hold All Positions—British Continue Raids—General Cadorna Is Steadily Exerting Heavy Pressure on the Trentino Front.

The engagement between the French and the Germans which was opened Wednesday by a German attack near Vauxaillon, southeast of Laon, is being continued spiritedly by the artillery; the infantry fighting having temporarily died down. Paris today reports an extension of the artillery duel eastward from Vauxaillon. It was raging last night along a front of approximately ten miles as far as the vicinity of Bray-En-Laonnois, reaching what the official report characterizes as "extreme intensity."

The infantry battle, after initial successes for the German crown prince, came to a halt after his troops had lost virtually everything they had gained. Only one small salient remained to the Germans. Resumption of attacks by one side or the other and along a much wider front appears an early probability.

In the Champagne also heavy fighting in progress. After the disappointing result of yesterday's attack by the Germans between Mont Carnillet and Mont Blond in which the crown prince's forces were not only repulsed but afterwards driven from their own positions, they attacked again last night, this time at Teton height. This assault also failed, Paris announces, all the positions remaining in French hands.

Along the British front in France, and Belgium only raiding operations are reported. The British raids have been chiefly in the region between the Arras battle front and that of the recent advance in Belgium. This curving section of the German line protects Lille, the main objective of both the Arras and Messines drives. On the Austro-Italian front Gen. Cadorna apparently is exerting heavy pressure along a wide sector of the Trentino front where Trent is the Italian objective.

British Making Raids.

LONDON, June 22.—"We made successful raids last night southeast of Quent and in the neighborhood of Neuve Chapelle and Armentieres," the war office announced today. "Casualties were inflicted on the enemy and we secured prisoners."

PAPERS TELL OF U. S. SOCIALISTS

German Press Printing Long Despatches About Three "Americans" in Stockholm.

NAMES ARE WITHHELD

Declare That President Wilson Is Closely Allied With Wall Street.

COPENHAGEN, June 22.—Most of the newspapers of Germany today print long special dispatches discussing the arrival at Stockholm, Sweden, of the three "American" Socialist representatives, Boris Reinstein, I. Bufalo, Dr. Max Goldfarb of the New York Forward and D. Davidovitch. The newspapers, however, carefully refrain from reproducing the information in the interests of Wall street, with which President Wilson is closely allied, and that it was "ordered" because Wall street believed Russia might conclude a separate peace with Germany, giving Germany the victory,

which had to be prevented at any cost."

Driggs later surrendered to the police.

FOOD BILLS ARE BEING OPPOSED

Administration Supporters Rearrange Battle Lines to Meet the Senate Tactics.

WASHINGTON, June 22.—Administration supporters of the food bills rearranged their battle lines today to make sure that the senate does not kill the second bill on the ground that the first bill is enough.

Fearing that should the first, or production bill, with its clause against food hoarding, be finally enacted while the senate debates the second, or control bill, it might be contended that the provisions of the first bill are sufficient, the house leaders today decided to let the first bill remain in its present stage and thus force the senate to enact all the program before any of it gets to the critical stage of conference between the two houses.

Should house leaders be able to delay the appointment of conference on the first bill until after passage of the second by both houses, they expected to get most of the administration's program on the statute books.

Iron, Steel Copper and Other Basic Materials May Be Under U. S. Supervision.

WASHINGTON, June 22.—Inquiry into production, prices and transportation of coal, steel, copper and other basic materials over which government supervision may be proposed during the war, was decided upon today by the senate interstate commerce committee. POLICE DEALING WITH PICKETS

Taking Firm Hand With White House "Silent Sentinels"—Banners Forbidden.

TWO WOMEN ARRESTED

Refused to Move From in Front of Gates and Are Taken to Jail.

WASHINGTON, June 22.—The police today began dealing with the suffrage pickets about the White House with a firm hand. It was ordered that no banners were to be permitted to be displayed and twenty policemen were stationed about the White House fence to enforce the order. Miss Lucy Burns of New York and Miss Catherine Morley of Boston, carriers of a banner, who refused to move from in front of one of the White House gates, were arrested and taken to police headquarters.

Banner Bearers Released.

At police headquarters the two banner bearers were informed that they had been arrested for blocking traffic and unlawful assemblage. They were released on their own recognizance and no date was set for trial. It developed that the suffragists took their banners out again today under advice of counsel but that they had sprung a surprise on the police. Instead of banners bearing inscriptions, characterized as "irresponsible and offensive" they bore banners inscribed with phrases from some of President Wilson's addresses.

The banner which led to the arrests today carried this sentence from the president's war message: "We will fight for the things we have always held nearest our hearts—for democracy—for the right of those who submit to authority to have a voice in their own government."

Leaders at suffrage headquarters were undecided after the arrest of Miss Burns and Miss Morley whether another effort would be made to display a banner. Some were inclined to favor waiting the outcome of the trial of the two women, but others took an opposite view and a new banner to say to the Russian mission that President Wilson is developing Russia by calling America a democracy, was prepared in case it was decided to resume the offensive.

BRITISH DENY RAIDER STORY

Steamer Arrives in Port With Only Its Own Crew Aboard.

AN ATLANTIC PORT, June 22.—The British vice consul at this port disclosed today that there was no truth in the report that a British steamer arriving here had aboard prisoners from a German raider, sunk or captured at sea. The steamer in question, he said, arrived here yesterday and had only her crew aboard.

Reports of a British steamer arriving at an Atlantic coast port with prisoners from a German raider, sunk or captured at sea, were declared by the navy department officials today to be without foundation. They had conferred by telephone with naval officers at the port in which the steamer arrived and were assured that while a British vessel had come into the harbor they were unable to find any truth in the reports that she carried prisoners from a German raider.

BELGIANS WELCOMED BY U. S. SENATE

WASHINGTON, June 22.—The Belgian mission was received today in the senate chamber with a great demonstration. An address by Baron Moncheur, head of the mission, expressing Belgium's gratitude for America's aid and sympathy was punctuated with frequent applause. Afterward all senators were introduced to members of the mission.

The baron addressed the senate as follows: "You all know the unspeakable evils which have befallen my unfortunate country—the unprovoked invasion accompanied by a deliberate system of terror, the burning of many of our thriving cities and of innumerable villages, the massacre of thousands of our peaceful citizens, the pillage and devastation of our country."

"Then followed the iron hand of foreign domination, enormous war contributions exacted from all the nine provinces of Belgium, the seizure of the raw material of industry and even the theft of our machinery so that now the silence of death reigns in our industrial centers which before had been the most active in Europe."

MANY COUNTRIES AID RED CROSS

Committees of Americans in London, Paris, Panama, Ecuador, Peru and Others.

LARGE SUMS PLEDGED

Several Hundred Thousand Dollars Coming From Manila, Alaska and Guam.

WASHINGTON, June 22.—America's campaign to raise \$100,000,000 this week for the Red Cross today assumed international proportions when word reached headquarters that committees of Americans in London, Paris, Panama, Ecuador, Peru and other South American countries are raising funds.

Promises of contributions aggregating several hundred thousand dollars came also from Manila, Alaska and Guam.

Compilations at headquarters early today showed \$63,000,000 was obtained in four days and today's work was expected to raise the total to near \$75,000,000. It was said today that the prospective field of work for the American Red Cross is developing so fast that \$100,000,000 might not be sufficient for long and possibly either another popular canvass for funds would be conducted or congress would be asked for an appropriation.

\$250,000 for Red Cross.

FLINT, Mich., June 22.—The General Motors company at a directors' meeting in New York last night subscribed \$250,000 to the Red Cross war fund. The subscription was on a basis of \$10 for each of the company's 25,000 employees.

POOL TABLES FOR AMERICANS

Business Men in U. S. Send Addition to Amusements to Naval Crews in Europe.

BASE OF AMERICAN FLOTILLA IN BRITISH WATERS, June 22 (By the Associated Press).—Two American pool tables, the first ever seen in this picturesque old village, arrived today. They are the latest addition to the clubhouse which is being built with funds provided by American business men for the crews of the American destroyers.

Although the dormitory which will provide sleeping accommodations for seventy-five men will not be completed for a month, the clubhouse will be formally opened on Saturday night. The program has been printed by the destroyers' press and announced in songs, dances, recitations and wrestling matches by "the most marvelous aggregation from God's country that ever set foot in anybody else's country."

A moving picture machine from one of the ships has been installed and the orchestra of the destroyer fleet is busy practicing for its share in the entertainment. Another feature will be a minstrel show by a troupe of comedians who were formerly on the battleship Nebraska.

AMERICANS TAKE OVER HOSPITALS

Six Great General Field Hospitals Pass Into Hands of U. S. Medicos.

BOTH FLAGS FLYING

Units Now in Charge Were Organized by the American Red Cross.

BRITISH HEADQUARTERS IN FRANCE, June 22 (By the Associated Press).—American doctors, nurses and enlisted men within the last fortnight have taken over six of the British great general field hospitals, releasing the English staffs for duty near their front. American surgeons also rendered valuable aid in the forward casualty clearing stations during the battle of Messines. The Stars and Stripes fly with the British Union Jack from each hospital flagstaff, the two ensigns fluttering side by side in the cool breezes that sweep in from the sea.

The British selected their hospital sites with the greatest care and have developed them with a completeness that has come from nearly three years' field experience. Some of the general hospitals are made up of tented wards accommodating forty to sixty beds each. Others are constructed of a series of huts. The operating theatres are splendidly built and seem to lack nothing in the way of surgical equipment.

American Red Cross in Charge.

Originally planned for 1600 beds each, the general hospitals have been practically all enlarged to 1400 beds and during a crisis can accommodate 2000 patients. The units which have taken over the various hospitals were organized by the American Red Cross as "United States base hospitals," and with the declaration of war these staffs were turned over to the regular army for service as required.

Each unit has brought along an organizing director, who was a surgeon in civil practice, but now takes command as a major in the United States reserve. The commanding officer in each unit is a regular American army surgeon, while the subordinate members of the staffs are made up of regular army surgeons and doctors commissioned from civil life. The nurses are all graduates of well-known training schools and will probably be supplemented soon by voluntary aid detachments of young women workers such as are now attached to the various British staffs. The non-commissioned orderlies and privates were practically all taken from civil life, but in keeping with the doctors and nurses have settled into their new work with marked efficiency and enthusiasm.
